

MAINE-NORTH ATLANTIC & ARCTIC EDUCATION CONSORTIUM

SPRING/SUMMER 2018

THE CONSORTIUM

Academic and community partners across Maine form the Maine- North Atlantic and Arctic Education Consortium

- To facilitate higher-education partnerships to educate the public about Maine-North Atlantic-Arctic economic, cultural, and environmental issues
- To promote collaborative research and innovative learning opportunities for students and faculty to spur sustainable economic and cultural development

MEMBERS

- Bates College
- Bigelow Laboratory for Ocean Sciences
- Biodiversity Research Institute
- Bowdoin College
- College of the Atlantic
- Maine Maritime Academy
- MITC/MENADO/StudyMaine
- Saint Joseph's College
- University of New England
- University of Maine's Climate Change Institute
- University of Southern Maine

ACTIVITIES

- **In Fall 2016**, Consortium members mutually supported and promoted public education lectures, panels, and events that occurred across Maine during the international Arctic Council meeting held in Portland, Maine
- **On April 6, 2018** the Consortium held its inaugural Collaborative Showcase: Challenges & Choices in the North Atlantic – Maine to the Arctic. Over 30 presenters shared their North Atlantic/Arctic research representing many disciplines: marine sciences, indigenous peoples, climate change, ocean acidification, resource extraction, culture, history, and geography
